TABULAR DATA FOR CHAPTER 5 (K)

THE COURSE IN EDUCATION.

THE COURSE IN EDUCATION.

The tabulated data gives details of the rankings of the following six areas of work completed as a part of the course in Education.

- a) Teaching Practice.
- b) Practical work connected with teaching.
- c) The Sociology of Education.
- d) The Psychology of Education.
- e) The Philosophy of Education.
- f) The History of Education.

These tables are followed by six more which indicate whether or not the students had had Too little, just enough or too much of the above six areas of the course in Education.

TEST INSTRUMENTS

- 1) Instruments which have been published (such as Cattell's 16 P.F.Q. and Heim's A.H.5 Intelligence Test) have not been placed in the following pages since the reader will already be familiar with them.
 - 2) A copy of Lynn's (1969) Achievement Motivation Questionnaire has been included since it is not widely known as yet.
 - 3) Instruments which were specifically developed by the investigator but which already appear in the body of the thesis in an itemised format (such as Personal Views on Teaching, Biographical Data and Reasons for Entering Teaching) have not been replicated here.
 - 4) Scales which are referred to in toto in the body of the thesis but have not been included as separate items and which are included in the following pages are as follows:
 - a) A questionnaire designed to assess attitudes towards College-based Authority and Discipline.
 - b) A questionnaire designed to assess attitudes towards:
 - (i) Main Subject 1 (i.e. a Student's 1st choice of Main Subject).
 - (ii) Main Subject 2
 - (iii) Education as a College subject.
- In the case of these latter items (i.e. b i, ii and iii) the presentation given on the following pages, Question No. 1 illustrates the actual format of the questionnaire and is followed by a simple reproduction of the actual questions used.

ACHIEVEMENT MOTIVATIONQUESTIONNAIRE
